

JOINT GP AND SPECIALIST CASE CONFERRING AT WESTMEAD HOSPITAL

What is a Case Conference?

The Joint GP and Specialist Case Conference (JGPSCC) program is a resource for GPs to help build primary care capacity to manage patients with type 2 diabetes.

How does it work?

The specialist team will have a 30 minute consultation with the GP and a patient about medication options and to formulate a plan of care. This will be via videoconference or teleconference during the COVID-19 pandemic.

GPs have the flexibility of booking either one patient at a time or up to 4 patients in one session.

Benefits to your practice

- ✓ Stay up-to-date with diabetes management guidelines and medications
- ✓ Access a diabetes team in your practice
- ✓ Increase your confidence to manage diabetes
- ✓ Improve your patient outcomes
- ✓ Access MBS billing.

Evaluation of the program shows a 0.93% HbA1c reduction three years after the initial JGPSCC
