What is a Case Conference?
The Joint GP and Specialist Case Conference (JGPSCC) program is a resource for GPs to help build primary care capacity to manage patients with type 2 diabetes.

How does it work?
The specialist team will have a 30 minute consultation with the GP and a patient about medication options and to formulate a plan of care. This will be via videoconference or teleconference during the COVID-19 pandemic.

GPs have the flexibility of booking either one patient at a time or up to 4 patients in one session.

Benefits to your practice
- Stay up-to-date with diabetes management guidelines and medications
- Access a diabetes team in your practice
- Increase your confidence to manage diabetes
- Improve your patient outcomes
- Access MBS billing.

Evaluation of the program shows a 0.93% HbA1c reduction three years after the initial JGPSCC

Interested? Next steps:

1. Book your Joint GP and Specialist Case Conference (JGPSCC) via your WSPHN Practice Development Coordinator, the WSPHN Help Desk on (02) 8811 7117 or via email support@wentwest.com.au

OR

2. Select up to 4 patients to review
3. Fax a referral for each patient to the Westmead specialist team two weeks before your scheduled JGPSCC session on (02) 9687 0462.

You can also make a booking directly with the Westmead team by calling Nazila on (02) 8890 8168 or 0427 747 390, or email Nazila.Aghaie@health.nsw.gov.au.
